MAKE THE FUTURE

January 12, 2021

ManufactureCT Welcomes its Newest Members

Dimension-Polyant & Ambrose Growth

Dimension-Polyant, located in Putnam, CT, is a world market leader in the production of sailcloth. They produce leading fabrics and laminates in plants in the US and Germany. From the yarn to the final product, the entire manufacturing process is precisely monitored and consistently controlled by their expert teams. Experienced specialists and self-trained employees master the state-of-the-art production of a wide variety of cloths and laminates right through to the fine coating. Their finished products are then carefully packed in rolls from our production sites via satellite stores and sales offices all over the world.

Ambrose Growth, located in Cheshire, CT, is a business coaching firm that helps company leadership teams identify and remove roadblocks. Owners and CEOs of mid-market companies are able to grow faster and with less pain by working with Ambrose Growth to develop a strategy and detailed execution plan and create a culture of accountability.

ManufactureCT Calendar Events:

Economic Outlook for 2021

Presented by

John Traynor

Executive Vice President & CIO, People's United Bank

As CIO, John directs the overall investment process and committees for the firm. As chief spokesman for investment outlook he leads regular strategy briefings. John appears regularly on CNBC, Nightly Business Report, and Fox Business Network and is quoted in the New York Times and Wall Street Journal. John will share his years of experience as we take a glimpse at the economic outlook for 2021.

Important Information for our ManufactureCT Members:

The Workplace in Bridgeport. The Workplace was awarded a grant to assist in training for young people who reside within their region. This funding would help pay for training to your younger workforce in the various manufacturing programs in Housatonic Community College's Continuing Education department.
