

# EARTH DAY

Growing Gardens and Building Birdhouses

## Hummingbirds

- Humming birds are located from Tierra Del Fuego to southern Alaska, they can be found in bleow sea levels, desserts to steamy desserts.
- They eat from brightly colored flowers that are tubed shaped like a hollyhock for example, that's because it holds the most nector.
- The way they eat is with their long tongue that curls up inside them. It flicks it's tongue 18 times a second!

04.21.2021 - 04.22.2021  
From 11am - 3pm.
