

EARTH DAY

Growing Gardens and Building Birdhouses

AT HCC 2021

Long Nosed Bat

- The Long Nose Bat is located in Mexico and some parts of Southern United States.
- They eat from cacti flowers such as agaves, saguaro and organ pipe.
- They have a long tongue the size of their body to gather all the nectar down at the bottom of the flowers.

04.21.2021 - 04.22.2021
From 11am - 3pm.
Taking place in the courtyard
at HCC.
